### PROFILE

I'm Tolera Fayisa, a passionate front-end developer focused on building intuitive and impactful digital products. With expertise in React.js, React Native, Framer, typescript and Figma, I turn ideas into user-centered experiences. My goal is to create meaningful solutions through clean code and thoughtful design.

### CERTIFICATIONS

### PROJECTS

#### Ethio Digital Learning

- An educational platform designed to provide accessible digital learning resources for Ethiopian students using typescript and tailwind CSS

#### Weather App

- A sleek and responsive weather application that provides real-time weather updates based on the user location or searched cities using typescript, Tailwind css and OpenWeather API

#### My Portfolio

- A creative portfolio website built to showcase my work as a front-end developer, featuring a custom project gallery and fully functional contact for collaboration opportunities
